AAC 222

HAY

bof[®]

HIGHLIGHTS

- Part of a multi-functional indoor family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa
- The curved shell has a slightly higher back and a deep generous seat
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table
- All shells are made from 100% recycled post-consumer plastic
- A majority of the unupholstered models are certified with the EU Ecolabel across the whole chair and bar stool series
- Available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers
- The plywood base comes in various colours and finishes
- Other base options are: Solid wood base, 4-star swivel base, 4-leg steel tube base and 5-star swivel base with wheels and gas lift
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAC 222

DESIGN BY HEE WELLING

Featuring a wooden frame with elegant, tapered legs, the AAC 222 has a timeless and organic aesthetic. Retaining the fundamental idea shared by the AAC collection, this model is characterised by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The wooden base brings character and stability and is available in different finishes, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours and multiple front upholstery options. The multitude of variants and design combinations give this series great versatility in a wide range of corporate, public, and private contexts.

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. The son of a cabinetmaker, Welling's fascination with production techniques, materials, and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts. Centred around the idea of creating technically accomplished products that can reach a wide audience, his designs are characterised by a great sense of proportion and quietly elegant aesthetics. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA), and has been nominated as Danish designer of the year in 2013 and 2014. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

EN 16139 - L2
Non-domestic seating

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
